Dear Educator,

The importance and effectiveness of small-group instruction has been documented and validated by independent research. A key element in successful small-group instruction is the quality of the resources available for teachers and students. As teachers intentionally use small-group time to build essential content knowledge and target specific reading skills and strategies, providing them with exceptional resources is critical.

Spot On books were developed to address this very critical need. We knew just another series of leveled books wouldn't be enough. It would take a new kind of leveled text to impact small-group success—one where the text is compelling, featuring authentic literature written by award-winning authors and reflecting the students' world and experiences, and science and social studies text that inspire the imagination and curiosity of young readers. It would take **Spot On Leveled Books for Literature, Science & Technology, and Social Studies**—550 new leveled texts developed for today's classroom.

We are very proud to have elevated the quality of leveled text while retaining the precise leveling that has been the hallmark of Benchmark Education since our company founding in 1998. For each title, we have included a comprehensive Teacher's Guide and Text Evidence Question Card. For Social Studies and Science & Technology, we have added Content Teaching Cards featuring inquiry projects. These materials will help teachers incorporate these important books into their daily small-group instruction and give them the tools to provoke thoughtful and constructive conversations with their students.

In this complex world, we remain dedicated to publishing unparalleled resources to help you bring language and literacy to all your students.

Sincerely,

Tom Reycraft
Founder and CEO

Enrich and Expand Instruction

Spot On Literature

Culturally responsive, authentic texts, featuring exclusive original and classic tales from beloved, award-winning authors, connect readers to themselves and the world.

AUTHORS:

Derrick Barnes, Joseph Bruchac, F. Isabel Campoy, Jerry Craft, Virginia Driving Hawk Sneve, Sari Wilson, Nguyen Phan Que Mai, Said Salah Ahmed, Jennifer Kroll, Gwendolyn Hooks, Frances E. Ruffin, Niki Daly, Traci Sorrell, Mike Rosler, Lyn Miller-Lachmann, Jane Yolen, and dozens more.

Each book includes a **Writing in Response to Reading** activity.

Folklore

Look for the genre features listed below as you read this book. Use the features to help you understand the text.

A **folktale** is a story of a people.

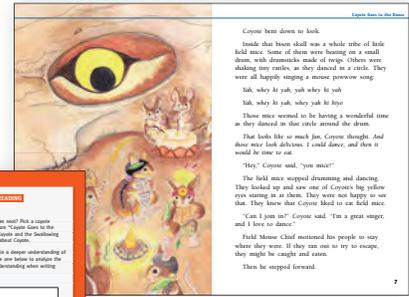

- By the end of the story, the reader knows the characters.
- The story has a moral or a lesson.
- The story is passed down from one generation to the next.
- The characters are simple.
- The story is set in a specific time and place.

Write a Sequel

What do you think Coyote did next? Write a sequel to the story. Use the features to help you understand the text.

Be sure to use the features to guide your understanding of the character. Use a chart like the one below to organize the details. Use your own understanding when writing about Coyote in your story.

Character Name	How does the character react?	What does the character do?

Coyote bent down to look. Inside that house dwelt one a whole tribe of half field mice. Some of them were hooting on a small drum, with drumsticks made of reeds. Others were shaking tiny rattles, as they danced in a circle. They were all happily singing a mouse prowess song: yuh, yuh, yuh yuh, yuh yuh yuh yuh, yuh yuh yuh, yuh yuh yuh yuh. These mice seemed to be having a wonderful time as they danced in that circle around the drum. That looks like so much fun, Coyote thought. And those mice look delicious. I could dance, and then it would be time to eat.

"Hey," Coyote said, "you miss?"

The field mice stopped drumming and dancing. They looked up and saw one of Coyote's big yellow eyes staring at as them. They were not happy to see that. They knew that Coyote liked to eat field mice.

"Can I join in?" Coyote said. "I'm a great dancer, and I love to dance."

Field Mouse Chief motioned his people to stay where they were. If they ran out to try to escape, they might be caught and eaten.

Then he happened forward.

Genre details in every book

Spot On Science & Technology

Incredibly rich resources support and meet NGSS standards.

Each book includes an **Inquiry Project**.

Informational Text

Look for the genre features listed below as you read this book. Use the features to help you understand the text.

The text can be used to inform, explain, or describe.

Questions and answers may be used to help you understand the text.

The text includes facts and statistics.

The text includes a glossary and a list of related words.

The text includes a title page and a table of contents.

The text includes a list of related words.

The text includes a list of related words.

Forces in Sports

Forces are used in every sport. Most use both pushing and pulling forces. Choose one favorite sport. Write a short paragraph explaining how the sport uses forces. Use a chart like the one below to help you plan your writing.

Sport	Force Used	How Force is Used

Combining Forces

Athletes combine different forces in each sport. A volleyball game uses pushes to change the direction of the ball. First, a player serves the ball. Bang! The ball is hit hard and pushed into the air and over the net. Then gravity begins to pull the ball toward the ground. Players dive and reach for the ball. Before the ball lands, someone has a Pop! The ball is pushed up against the force of gravity and goes back over the net in the opposite direction. The team misses and the ball falls to the ground. Score!

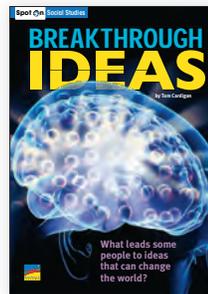

As an example of easy forces at work.

A snowboarder also uses different forces. The force of gravity pulls the snowboarder down a hill. The boarder uses his or her weight to change direction. The board can move and stay away from left to right. This movement directs the board.

Genre details in every book

Spot On Social Studies

Meet national standards for History–Social Science while building knowledge and perspectives.

Each book includes an **Inquiry Project**.

Biography

Look for the genre features listed below as you read this book. Use the features to help you understand the text.

The text can be used to inform, explain, or describe.

Questions and answers may be used to help you understand the text.

The text includes facts and statistics.

The text includes a glossary and a list of related words.

The text includes a title page and a table of contents.

The text includes a list of related words.

The text includes a list of related words.

Write a Biography

You will find biographies that people who changed the world. You will find biographies that people who changed the world. You will find biographies that people who changed the world. You will find biographies that people who changed the world.

1. Decide on the person you will write about. The person can be a scientist, leader, inventor, or someone else. The person can be a person who lived in the past or a person who lives today.

2. Think about what the person did and how they did it. Write down the person's name and what they did.

3. Write a list of your biographies, using details from the chart.

4. Check your list for spelling and grammar errors. Check that you are consistent in your list of words.

5. Write a list of all your biographies and present it to the class.

Write about the person's personality.

Write about the person's life.

Write about the person's work.

Write about the person's family.

Write about the person's friends.

Write about the person's achievements.

Write about the person's challenges.

Careers in Astronomy

As an astronomer, you study the stars and planets in our solar system and other galaxies. You use telescopes to see things that are too far away to see with the naked eye. You use computers to analyze the data you collect. You use your knowledge of physics to understand how the universe works.

Maria Mitchell father built his own school in their hometown of Nantuxet, Massachusetts. Mitchell went to his school.

When Mitchell was seven, she started at a school of her own. She founded the school to teach girls to read and write.

A year later, in 1836, Mitchell became the head librarian at the Nantuxet library. She worked there for the next twenty years. She also continued to study astronomy.

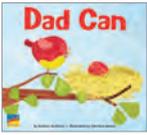

Maria Mitchell was the first woman to be elected to the American Academy of Arts and Sciences.

Exceptional Teacher Support for Every Title

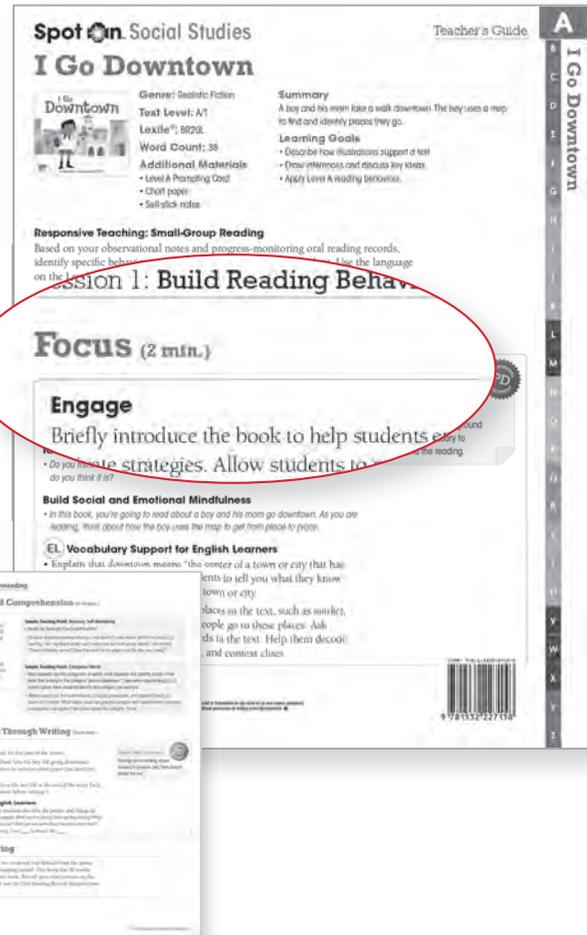

- > Comprehensive Teacher's Guides focus on accessing social studies text.
- > Inquiry projects are included for each title on Content Teaching Cards.
- > Text Evidence Question Cards provide students with practice in finding text evidence in social studies texts using literary skills.
- > Each book is available in digital format with interactive features supporting blended learning strategies.

Comprehensive Teacher's Guides

4-Page Guide for Every Title

- > 2 mini-lessons for small-group instruction to build effective reading behaviors, encourage collaborative conversation, and deepen comprehension
- > Point of use PD tips from renowned education thought leaders
- > Guided practice with assessment
- > Writing activities, social emotional mindfulness connections, support for English Learners, and more

Text Evidence Question Cards

Text Evidence Question Cards provide teachers with reproducible questions to help students access complex text.

- > 10 text-dependent questions per card at various DOK levels
- > Answer key for quick assessment
- > Tips for guided, independent, or partner practice

Content Teaching Cards for Social Studies and Science & Technology

Inquiry projects empower students to take ownership of their learning.

- > 2 inquiry projects are provided for each book—one on the inside back cover of the book and another larger project on each Content Teaching Card.
- > Reinforce relevant content and improve understanding of core concepts.
- > Students learn how to ask questions, investigate, discuss, collaborate, cooperate, and reach their own conclusions.
